EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

Please cancel non-elected claims 29-38.

Reasons for Allowance

- 3. Applicant's amendment filed May 7, 2004, has been entered. Claims 1, 2, 39, 41, and 43-46 have been amended. Claims 15-28 are cancelled, while claims 29-38 are withdrawn as non-elected.
- 4. Applicant's amendment is sufficient to withdraw the prior art rejections based upon US 4,578,070 issued to Holtman, as set forth in sections 19-22 of the last Office Action. Specifically, applicant has amended the independent claims to limit the nonwoven web comprises "substantially continuous as formed z-direction fibers" and "being formed without pleating of the web." Said amendment differentiates the Holtman reference which corrugates or pleats a pre-formed nonwoven web, thereby producing a structurally different nonwoven. Thus, Holtman does not teach or suggest the "substantially continuous as formed z-direction fibers" as defined in the present specification, page 7, lines 13-17.

Application/Control Number: 09/538,744

Art Unit: 1771

- 5. An updated search of the prior art has produced no new art for which to make a proper rejection of the present claims. Although it is known in the art to form nonwovens having "as formed z-oriented fibers" from a non-bonded, carded webs of staple fibers, there is no suggestion to substitute "substantially continuous fibers," as defined in the specification, page 9, lines 14-22, for said carded staple fiber web. [Note WO 99/61693, EP 516 964, and US 5,951,798.] Thus, the prior art does not teach or fairly suggest the presently claimed nonwoven comprising substantially continuous as formed z-direction fibers forming closing loops of fibers and being formed without pleating. Hence, claims 1-14 and 39-46 are allowed.
- 6. The updated search also produced the following art of record:
- (a) US 6,588,080 issued to Neely et al., which is not available as prior art due the same effective filing date as the present application,
- (b) US 6,635,136 issued to White et al., which is a CIP of the present application, and
- (c) US 2003/0114813 issued to Dodge, II et al., which is not available as prior art due to an effective filing date later than the present application.
- 7. With respect to the objection to the specification set forth in section 18 of the last Office Action, the examiner hereby withdraws said objection as erroneous. [Note Applicant's traversal in said Amendment, page 9, 2nd paragraph.]
- 8. This application is in condition for allowance except for the presence of claims 29-38 non-elected without traverse, due to lack of arguments in the Amendment of July 30, 2002. Accordingly, claims 29-38 have been cancelled.
